

# ACT FOR MS

*Providing assistance for  
Coachella Valley Residents living with Multiple Sclerosis*

ACT for MS has become the premier resource for individuals in the Coachella Valley who have been diagnosed with Multiple Sclerosis. We offer clients a variety of programs and services to help them live with MS, its symptoms and debilities by providing the tools and resources necessary to successfully improve their quality of life while living with an incurable medical condition.

Our major client programs include educational seminars and workshops, weekly strength training, exercise and cardiovascular health programs, semi-monthly therapeutic and flexible massage, assistance with equipment products designed to improve their safety, mobility and independence, along with a program of providing electric bill payments and air conditioning repairs for our clients who are financially limited. Our goal is a program of quality assistance that makes a meaningful difference to people with MS and their family members. Without ACT for MS, they would not have access to any of the unique approaches that we provide.

ACT for MS has been presenting client programs for about seven years and the number of clients we serve has grown dramatically. Our individualized approach and dedication to local program services for local area clients is our hallmark.

For additional information, please contact us at 760- 773- 9806.
